

1. *YOUR* project showing postman listing all records

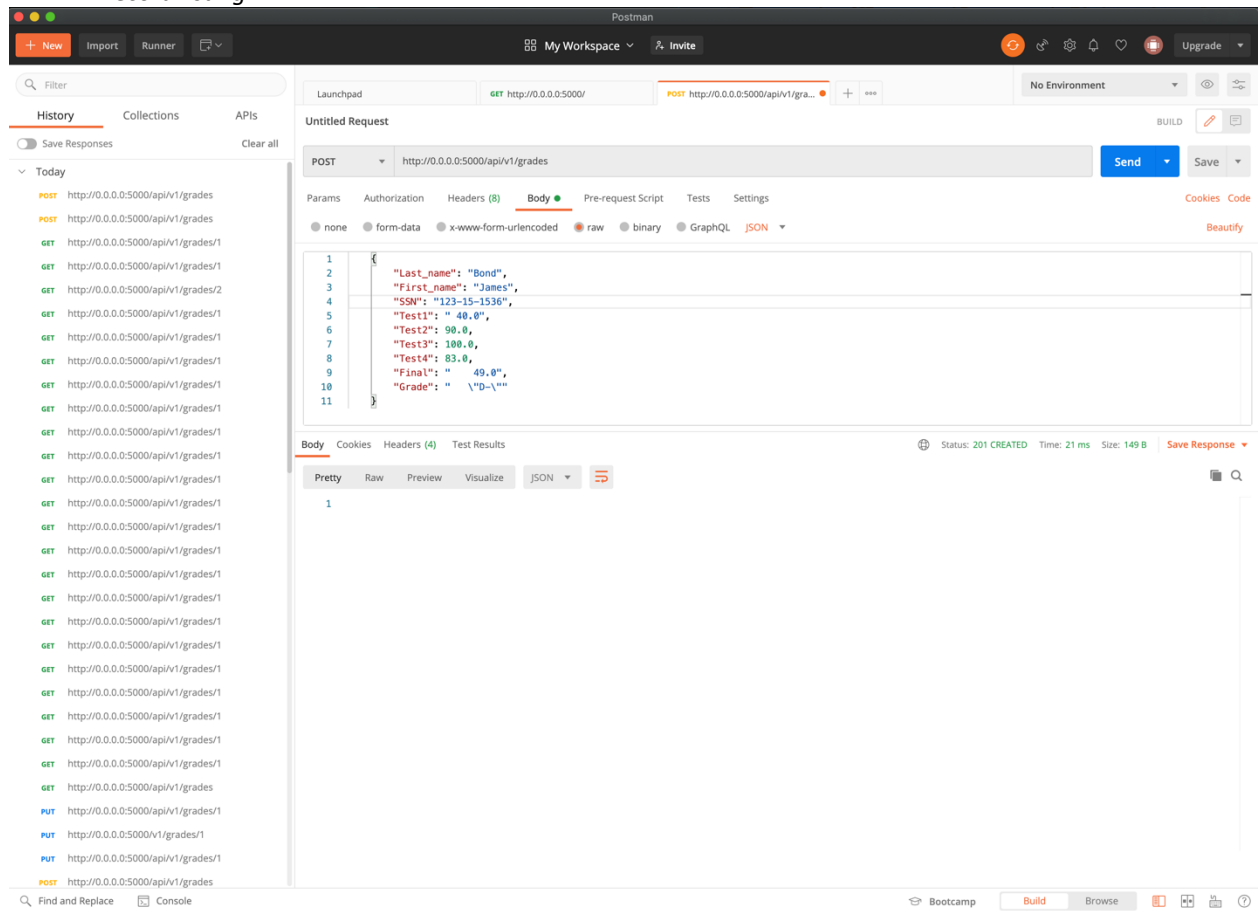

The screenshot shows the Postman interface with a GET request to `http://0.0.0.0:5000/api/v1/grades`. The response is a 200 OK status with a response time of 14 ms and a size of 3.5 KB. The response body is a large JSON array containing 17 student records, each with fields like `id`, `Last_name`, `First_name`, `SSN`, and various test scores.
